

Harrel Ellis

4843732 | harel.ellis@gmail.com | Number 4, Bryce Terrace, St Augustine

Professional Summary

A 22-year-old electrical engineering student with a passion for the field. Seeking opportunities to apply skills in MATLAB, C++ Programming, and Electrical Wiring. Committed to enhancing communication skills and delivering innovative solutions in the electrical engineering industry.

Skills

- MATLAB
- C++ Programming
- Electrical Wiring
- Communication Skills

Certifications and Training

- Electrical and Computer Engineering degree

Professional Achievements

- CXE examinations

Work Experience

Apprentice Plumber

Position: Apprentice Plumber

Responsible for assisting with plumbing tasks and installations. Successfully completed an electrical wiring project for residential use and a BJT data mining project for programming.

Education

Queen's Royal College 2015-2022

UWI Engineering 2023-2026

Interests

- Electronics
- Robotics
- Programming
- Energy Systems

Extracurricular Activities

- Robotics Club: Active member participating in various projects and competitions.
- Football: Engaged in team sports and building teamwork skills.

Professional Associations

- IEEE
